

Britain May Capture Coveted American Cup

A beautiful new streamlined racing car, winning races after races, and a magnificent driver, suddenly has received British hopes of capturing the American Cup.

The cup—"that old mug"—as president of the Automobile Club of America for 35 years—probably is more coveted by British sportsmen than any other trophy in the world. Why Britain never has been able to regain it since it crossed her Atlantic in 1895 is a riddle.

But Britishers believe that the answer has been found in "Veloc'h", ultra-modern all-star creation of Charles E. Nicholson, who designed the last two "Shamrocks" for Sir John Lipton. "Veloc'h" embodies the lessons Nicholson learned from the defeat of "Shamrock V" by Harold Vanderbilt's "Enterprise" in 1930.

The success of the new cutter has made it almost certain that for owner W. L. Stephenson, will succeed the picturesque and colorful American challenger for the cup. Stephenson, chairman of the British subsidiary of F. W. Woolworth & Co., named the yacht after his three daughters, Velma, Sheila and Daphne.

No contest could be held this year, since the challenge must be made at least nine months before the race, but British racing men believe Stephenson will leave it in the hands of the Americans to keep on winning. In the great Scotch racing festival known as the "Clyde Portland," which was won by "Veloc'h" over five firsts and three seconds out of nine races, the "Shamrock V" and King George's "Britannia."

The two wins "Shamrock" scored over "Veloc'h" before the race, of which only a few seconds, while all "Veloc'h's" victories were by a large margin.

"Veloc'h's" chief feature, aside from her steel hull, is the new-fashioned "Puls-Away" hull, which is copied from the "Enterprise," with a few new improvements. It is designed to speed up handling of the material.

Moreover, she is equipped with all the other time-saving mechanical devices which Lipton said were responsible for "Enterprise's" victory in the last cup race.

Almost a sure sign "Veloc'h" will challenge is the fact that it is 88 feet on the waterline and 127 feet on the deck, which is longer than "Shamrock V," which left the record of more length in the rougher American waters, where the course is laid. "Shamrock," moreover, was noticeably slower in "triple" sailing downwind, "Veloc'h's" is an improvement in this respect.

Otherwise the new cutter adheres pretty closely to the specifications for "A" class yachts. It is of slightly more than 200 tons, will sail area of 7,500 sq. ft., has a mast, a beam of 21 feet, and draft of 15. Its lead keel weighs about 30 tons.

TRUCK OF SETTLERS FROM DROUTH AREA COMMENCES

Loading of railway freight cars with settlers' effects has begun in the Berry Creek area, the settlers moving from the north and south to the Berry Creek area, the settlers moving from the north and south to the Berry Creek area, the settlers moving from the north and south to the Berry Creek area.

NEWFOUNDLAND LUCKY TO HAVE TROTTER COUNTRY

It may be a bit of a shock to a Newfoundlanders' pride that for a time they are to have their dominion status virtually taken away from them and the country placed under the commission which will perform all the essential functions of government. This is the result of the resignation of Lord Amhurst's commission, which has been accepted by the government, and it is likely to be accepted.

Newfoundland should not worry. Newfoundlanders should be very happy to have the job of straightening out the tangle into which they have fallen. It is a pity that what has happened is simply this: One of John's family has got into a financial mess and the old man is coming to the rescue. He says in effect: "I've just stand aside for a while until I put you in my feet, and when I see you are on your feet, I'll get out of your life and you can run your own show again."

This is one of the advantages of being able to look to a mother country. The Times Times-Journal.

PRAIRIE FORAGE CROP SEED PRODUCTION

In regard to the forage crop seed production within the three prairie provinces, the following statistics are given from the figures compiled by the Market Research Bureau of the Dominion Bureau of Statistics. The kinds and amounts of forage crop seeds produced in 1931 are as follows: 150,000 pounds, alfalfa; 225,000 pounds, bromegrass; 100,000 pounds, western red clover; 25,000 pounds, timothy; 15,000 pounds, lucerne; 500,000 pounds, bromegrass; 475,000 pounds, western red clover; 170,000 pounds, timothy; 2,575,000 pounds, alfalfa; 15,000 pounds, lucerne.

These figures indicate that appreciable quantities of these seeds are produced in 1931, but the total amount of 5,120,000 pounds is sufficient to supply only 520,000 acres, says Mr. G. M. Stewart, Dominion Seed Inspector, in "Scientific Agriculture." This amount of seed is therefore not enough for more than one-third of the acreage that is being seeded at the present time. It is certainly very far from adequate for the increased acreage of forage crops which should be encouraged in these provinces and that seed seems inevitable.

When we consider the high quality of the seeds that can be and are produced by the relatively few growers who are trying to produce good seed, we can see that we are neglecting a golden opportunity. The premier seed taken by growers and used for seed in the provinces is produced by the relatively few growers who are trying to produce good seed, we can see that we are neglecting a golden opportunity.

The chief cause of this is the lack of adequate facilities for the production of seed. It is a very important crop in the United States. It is a very important crop in the United States.

BEANSON NEWS

BEANSON, Aug. 21.—Crop in this district, considering the late start, has come on exceptionally well. Oats and barley will be first. Wheat cutting has started. Most of the variety being Garret. Garret wheat is showing up to advantage in comparison with Marquis. It is being grown from seven to ten days earlier than Marquis, which is a great consideration when the nights begin to get cold.

There will be a meeting of the Nightingale Girls Club at the home of the Mildred Allen on Saturday, September 2, at 2:30 o'clock. This being the annual meeting, all paid-up members are requested to be present.

Mr. G. W. Ferris and his crew have recently cut down the bank on the east side of the Smoky River, at the ferry. This is a decided improvement for patrons of this route, as the approach to the ferry on the east side was very steep.

A number of the ratepayers of Beanson school district gathered at the school grounds on Thursday last week and completed the raising of the school fence on the west side, which greatly improves the appearance of the school. The remaining part to be repaired will possibly have to stand over for another week.

The dance held at the Community Hall on Friday night, August 18, was well attended and the orchestra was the best of the kind in the hall for some time. The ever-popular orchestra was augmented at times by the cornet playing of Albert Morte of Sturgeon Lake, who was a great hit with the crowd. Hope was expressed on all sides that we could have another chance to enjoy this popular artist.

There will be no more dances at the hall until further notice. If there should be a dance between harvest and threshing, notice will be given through the columns of this paper.

On Saturday, September 2, at 8 o'clock, there will be a contest, the threeshorn of the district east of Grande Prairie to be contested for a threshing price which would be satisfactory to both the threeshorn and their customers. The threeshorn men, please keep this date open and have another chance to enjoy this popular artist.

Mr. and Mrs. Frank Klusman arrived from Lethbridge, B. C., to take up residence with the latter's parents, Mr. and Mrs. Peckham.

The East End students writing departmental papers have been successful in passing on the subject matter. Miss Ellen Hunter, who wrote on "Victory," passed with an average of almost 90 per cent in grade nine work. Miss Ellen Rooney, attending the separate school in Grande Prairie, won the medal given for proficiency in grade nine work. Margaret Moon, attending school in Edmonton, won the medal in grade nine work. Miss Mary MacLennan, attending Grande Prairie High, passed with an average of almost 90 per cent in grade nine work. Miss Mary MacLennan, attending Grande Prairie High, passed with an average of almost 90 per cent in grade nine work.

The Lindsay Local U. F. A. is steadily increasing its membership. Starting with just a few members, they now have a list of 100 members, first intimated. It is the intention of the members to do more business cooperatively in the future. It has been the rule in the past, so any one interested in keeping the local U. F. A. and running expenses will do well to get in touch with this local.

NANPA NEWS

NANPA, Aug. 18.—Ed. Tremblay met with a painful case of the flu. One of the horses he had hitched to a trailer kicked and in so doing, he was right side. He will be laid up for a few days yet.

Mr. and Mrs. G. P. Brown, Mr. and Mrs. Maxwell of Danville, Ont. and Mrs. Abner Brown, Mr. Brown and daughter Evelyn, Mr. K. Brown, Hank Brown, Ted Owens and Les, Gillespie, all of Nanpa, and Mrs. Brown, Chester Brown and G. Brown of Rosedale moved through the Grande Prairie district last week, taking in the field day at Beaverhead and going on to Bran Lake, coming back through Yellowknife, N.W.T. farm. They arrived home Sunday night and spent a splendid week at home.

The Hibbert brothers, Bill Bruce, Nedrick Sergeant and Jim Owens arrived home Sunday from a successful holiday spent at Slave Lake.

Mr. and Mrs. Jack Mull and daughter, of Battle River, and John and Frank McCrea of Judah and John Brown of Nanpa arrived home Monday after spending a week at Slave Lake.

It is expected that harvest will begin some time next week.

THE CHAMPION LIAR

Somewhere in New York City is a wife who's been told for three years, officials of Madison Square Garden, the drama "Madison Square Garden," at the Capitol Theatre, Grande Prairie, next Monday, Tuesday and Wednesday, don't know her, but they do know her.

Yellow who, three days a week for the past three years, has stopped in at the box office to spend 15 cents on a program of the event going on that night. This point is repeated in the program, but apparently takes the program home and watching at 3 a.m. next morning, telling her what a swell party he's seen, and proferring the program to demonstrate, she hasn't wined up yet.

"Everything that's brought news to the buyer, doesn't it?"

"No, some things, such as coal, go to the cellar."

Artificial sunshine has lowered the death rate in the London and

BUFFALO LAKES

BUFFALO LAKES, Aug. 15.—The Buffalo Lake school term defuncted this week. The school term was held last Wednesday evening.

H. H. H. and L. L. L. and Graham MacFarlane returned to Edmonton. They are spending a short vacation.

A U. F. A. meeting was to be held last Wednesday, but as only four members of the organization, there was no meeting. The meeting was adjourned. This certainly was the last of the Buffalo Lake on the map. We need Ottawa of not accomplishing much, but we are not in a particular at home.

It has been decided, however, to ship in U. G. O. binder tires.

Mrs. J. Meen of Seaxmuth and her young son will be spending a few days with Mr. Ben Thomas.

BUFFALO LAKES, Aug. 21.—A very large congregation attended the service at St. John's Church last Sunday.

Rev. H. H. H. and L. L. L. and Graham MacFarlane returned to Edmonton. They are spending a short vacation.

Mrs. J. Meen of Seaxmuth and her young son will be spending a few days with Mr. Ben Thomas.

LITTLE SMOKY

LITTLE SMOKY, Aug. 21.—Mr. P. Irvin, who spent some time with his daughter, Mrs. Desmond at Wm. Bay, has returned to his home here.

Mrs. Love, who spent her vacation with friends at High Prairie, for some of a few days, but returned to her home here.

Mrs. Cunningham, who has been employed by the Government at High Prairie, is looking fine in this part; but, oh! the smell of forest is in the air.

Charles and Gordon Carpenter have been visiting for a few days by G. W. Randall "new town." We believe they were both visitors to the fair.

Mrs. Old Brown spent a few days with friends in High Prairie recently and while there attended the fair.

THANKS FOR SUPPORT

The directors of the Spirit River Agricultural Society, at the appreciation for the local support of the Spirit River Agricultural Society, on August 9 and 10, and especially for the donations of cash, cream, for cream, water, for and other materials and for the volunteers who helped in the making of the Stampede an unqualified success.

Many thanks are expressed for the expression of our appreciation. On behalf of the Spirit River Agricultural Society.

ILLUSTRATED NEWS OF THE WEEK - A SPECIAL TRIBUNE FEATURE

THE BEST OF THE WEEK'S INTERESTING NEWS PICTURES

MILLION-DOLLAR FIRE SWEEPS ONTARIO TOWN

This picture shows a small part of the business section of Cornwall, Ontario, being demolished by flames which caused a million dollars' worth of damage. Fire-fighting apparatus had to be called from Ottawa and Montreal to help save the town from being wiped out. The conflagration started in a rubbish heap in a back yard and before it could be controlled five hours later one-sixth of the entire commercial area had been demolished. In addition to fifteen apartments and eight homes. Immediately following the fire a city-wide drive was started for funds to re-establish 17 destitute families rendered homeless by Cornwall's great fire. A check-up revealed 56 families lost their dwellings or apartments in the fire, of whom 17 are completely without resources.

PLANS BETTER WHEAT

Details of an extensive program to improve western wheat crops and thereby raise the premium which Canada obtains on world markets for her grain have been revealed by Dr. L. H. Newman (above), Dominion cerealist. He is at present doing research work in western Canada.

A Few Items of World Interest

British Columbia lumbermen, particularly shingle manufacturers, are perturbed over possibility of an embargo being placed on their products by United States under the new Reciprocity Act.

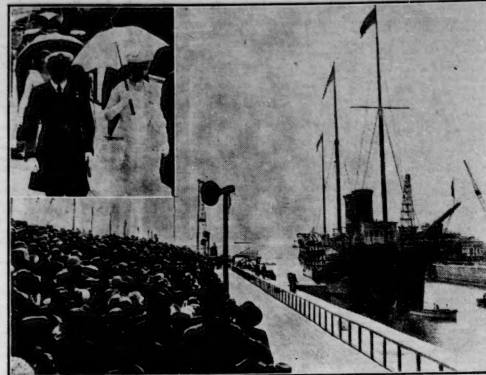

This year's cotton production in the United States was forecast by the Department of Agriculture at 12,314,000 bales of 500 pounds gross weight, compared with 23,022,500 bales last year.

John Copthorne, 72, veteran of the Red Rebellion, died at Victoria recently. A native of Cork, Ireland, he came to Canada in 1858 and for many years owned a cattle ranch at Jumping Pound, Alberta. He has been a resident of Victoria for 19 years.

Decline of 21,260 in the number of persons on relief in British Columbia between March and June of this year is recorded in official figures released recently.

Crow's Nest Pass Coal Company of Fernie, B.C., has secured the entire contract of the Winnipeg Electric Company for coke, amounting to 50,000 tons a year. Formerly United States supplied the Winnipeg firm.

Because of the increasing importance of Canada and other American nations in Japan's foreign relations, the foreign office is planning to establish a new affairs bureau to handle all things with nations in North, South and Central America.

KING GEORGE OPENS HUGE DOCK AT SOUTHAMPTON

Southampton, one of the most famous of Britain's seaports, and a gala day recently when the King and Queen opened the new gravestone, which will provide accommodation for the biggest liners afloat. The main picture shows the royal yacht, "Victoria and Albert," entering the dock after her bows had severed the ribbon stretched across the water. Inset (left): Majesties walk along the dock to the dais erected for the final ceremonies. This new gravestone, the largest of its kind in the world, is 1,200 feet long, 135 feet wide, and at high water level will contain 200,000 tons of water.

CANCER DANGER IN SUN-BATH—MEDICOS WARN

According to noted dermatologists of two continents, the prevailing fad of sun-bathing is definitely linked to the dread disease of cancer. In a recently published book on "Diseases Due to Light," Hubert Jasson, noted French physician, stated that fourteen per cent of the cases of cancer of the skin treated in hospitals in Marseilles have been traced to sunbath. However, it is but fair to Old Sol to point out that sun-bathing in moderation rarely brings such tragic results. Elderly persons are especially warned that over-exposure to the sun may have undesirable effects. A famous sun-bather, George Bernard Shaw, famous dramatist, seems to scoff at such warnings. He takes daily sun-baths, to which he attributes his marvellous health. Then, too, the millions of sun-bathers on our beaches do not seem to take the warning seriously.

THE RAJA'S SON COMES HOME FROM COLLEGE

THE CONTINENTALIST GOES IN FOR GOLF IN A BIG WAY

YOUTHFUL PITCHER

Oral Clyde Hildebrand, right hand pitcher for the Cleveland Indians, was recently involved in a dispute with Manager Walter Johnson, but that squabble has been patched up and Hildebrand, really a star young pitcher, has been restored to good standing. He made the American League with shutouts this season.

EGGS FOR NORTHERN PORT

TUNSA, Sask.—Fresh eggs that likely won't be so fresh when they reach their destination, left Tunsa recently. Two hundred and ten dozen were consigned to Sergeant White and Constable N. Yates at Chesterfield Inn, N.W.T.

Constable Yates, an Ituna farm lad, wrote home before he went north he never dreamt that he could eat "free-jointed" eggs, but has learnt how since. Eggs packed in salt will keep good for over a year. They will go via railroad to Churchill and from there will be transported to Chesterfield Inn, on a Hudson's Bay Company's service boat.

A PROMINENT SOCIETY WEDDING

One of the big events of the London season was the wedding of Lord Willoughby de Eresby and Miss Phyllis Astor, daughter of Lord and Lady Astor, which took place at Cliveden on the River Thames. The picture shows the charming bride cutting the cake while Lord Willoughby looks on.

MASTER: "Where are my clothes, Javous?"
MAN SERVANT: "I don't know, sir. I tried to find out from you where you came in last night!"
—The London Opinion.

CANADIAN LEGION DELEGATE DECORATES CENOTAPH

Sixteen floral tributes from all parts of the British Empire were laid at the foot of Britain's memorial to her Great War heroes by Legion delegates recently. This picture shows Major Hoper of Canada placing the Dominion's tribute at the foot of the Cenotaph, while Captain Baker, who is killed, waits to perform a similar act. The delegates were assembled in London for the conference of ex-servicemen of the British Empire, organized by the British Empire Service League. Two years ago the conference was held in Toronto, Ontario.

A RESOURCEFUL TRADER

Tom Harvey, veteran trader of Cumberland House, 100 miles west of The Pas, Man., has created a new record for unusual freightage slights on the Saskatchewan River. Mr. Harvey needed a dwelling near his store and having one in The Pas, decided to move it into the hinterland. It was loaded on two scoops and towed by gasoline tug.

CANNOT BE CLASSIFIED

Two fishermen have caught a marine monster that defies classification at Tacoma, Wash. The strange creature has the head and body of a reptile and the gills and fins of a fish. Powerful jaws enclose fangs nearly an inch long. The body is large and muscular for about 18 inches behind the head, then tapers off rapidly into a dark, scaly, reptile-like tail five feet in length.

EXPLORER'S WIFE PREFERS HOME

Expeditions to the north and south poles are thrilling, but Lady Hubert Wilkins, wife of the famous Australian explorer, prefers the less adventurous joys of domestic life. She is now in New York while her husband is with the Ellsworth Antarctic Expedition. Lady Wilkins plans to accompany her husband on one more polar trip and then settle down to real home life.
